Exaltation of Christ

Violin Solo

Garden Tomb, Jerusalem
Our fondest memory of the Garden Tomb was when a large group of Ethiopian Jewish Christian men sang hymns at the entrance to the tomb with an all abounding earnestness and strong conviction! The Garden is a quiet place of rest for the Christian to meditate on God’s Word and to sing alone or with others in little enclosures in the Garden. Sadly, we’ve also heard singing coming out of various parts of the Garden, which glorifies the flesh, rather than glorifying the Savior. God is glorified only when music follows His Word and His natural laws of music, which He set up at creation. Let us follow our Lord Jesus Christ with melodious, harmonious, orderly, and pure hymns!! (Eph. 5:19)
